

DEPARTMENT
OF PHARMACEUTICAL SCIENCES

Seminars on Drug Discovery & Development

Wednesdays 17:00 - 18:00, Lecture Hall 1, Pharmazentrum, Klingelbergstrasse 50, Basel

- Feb 24, 16** **Prof. Dr. G. Klebe, Institute of Pharmaceutical Chemistry, Philipps-University Marburg, Germany**
“Profiling Enthalpy/Entropy in Ligand Binding to Aid Decision-Making in Drug Optimization: Facts or Fantasy?”
Host: Prof. B. Ernst
- Mar 02, 16** **Prof. L. Décosterd, Laboratory of Clinical Pharmacology, Service of Biomedicine, CHUV, Lausanne, Switzerland**
“Targeting and Individualizing Drug Treatment: Bioanalytical Approaches for Personalized Medicine”
Host: Prof. M. Hamburger
- Mar 09, 16** **Dr. Michael Witting, Helmholtz Zentrum München, Dept. of Environmental Sciences, Analytical BioGeoChemistry (BGC), Neuherberg, Germany**
“Caenorhabditis elegans and Metabolomics – New ways for drug testing and metabolism research”
Host: Prof. A. Odermatt
- Mar 16, 16** **Prof. Dr. Annette Draeger, Institute of Anatomy, Cellbiology, University of Berne, Switzerland**
“Sequestration of bacterial toxins by tailored liposomes”
Host: PD Dr. O. Potterat
- Mar 30, 16** **Dr. Thierry Lavé, Head Project Leaders/Modelling & Simulation, Pharmaceutical Sciences Roche Innovation Center Basel, Switzerland**
„Translational PK/PD in discovery and early development“
Host: Prof. J. Huwyler
- Apr 06, 16** **Dr. Anne Imberty, CERMAV-CNRS, Grenoble, France**
“Lectines from bacteria and fungi: therapeutical targets and research tools”
Host: Prof. B. Ernst
- Apr 13, 16** **Apl.-Prof. Dr. Axel Helmstädter, Institute of Pharmaceutical Chemistry, Goethe University, Frankfurt am Main, Germany**
“The legacy of 19th century botanists: potential impact on phytopharmacological research”
Host: Dr. U. Hirter

Seminars on Drug Discovery & Development

Wednesdays 17:00 - 18:00, Lecture Hall 1, Pharmazentrum, Klingelbergstrasse 50, Basel

- Apr 20, 16** **Prof. Dr. med. Gerd A. Kullak-Ublick, Klinik für Klinische Pharmakologie und Toxikologie, Universitätsspital Zürich, Schweiz**
“New biomarkers for the diagnosis and management of drug-induced liver injury”
Host: Prof. S. Krähenbühl
- Apr 27, 16** **Prof. Dr. med. H. zur Hausen, Deutsches Krebsforschungszentrum, Heidelberg, Germany**
Nobelpreisträger für Medizin 2008
“Bovine Meat and Milk as Risk Factors for Specific Cancers and Neurodegenerative Diseases”
Host: PhD-Club
- Mai 11, 16** **Dr. Jennifer Keiser, Helminth Drug Development Unit, Department of Medical Parasitology and Infection Biology, Swiss Tropical and Public Health Institute, Basel**
“Schistosomiasis and praziquantel: from dose-finding to pharmacokinetic studies“
Host: Prof. J. Huwyler
- Mai 18, 16** **Dr. Klaus Seuwen, Novartis, Institute for Biomedical Research, Basel**
“GPCRs: Target identification for drug discovery“
Host: Prof. A. Odermatt
- Mai 25, 16** **Prof. Dr. Martin Egli, Department of Biochemistry, Vanderbilt University, School of Medicine, Nashville, Tennessee, USA**
“Modified Nucleic Acids-Protein Interactions: The X-ray Crystallographic View“
Host: Prof. A. Vedani
